Sir,

Re: Change of electricity tariff for private healthcare sector establishments to LT 2 - B, from commercial LT 5.

We wish to bring to your notice that **ALL HEALTHCARE ESTABLISHMENTS provide a basic need of the public, and are providing a valuable humanitarian service to the public.** This needs to be recognised by the TNEB and the electricity tariffs should be brought on par with Govt hospitals, orphanages, and terminal care centers etc. As of now, Cinema theatres and Cinema studios, all private educational institutions, are all getting such treatment, with a proposal for slightly differential but still reduced tariffs.

We in the healthcare sector, request you to strongly champion our request for **ALL healthcare establishments, public, private clinics, and hospitals, to be included in the proposed tariff slab within LT2B of Government colleges, Government Hospitals Etc, of 440 paise/unit.**

This will help the hospitals and clinics to provide healthcare to the public at reasonable cost. I request the TNERC to implement this provision without fail.

I would like to attend and voice my request at the TNERC public hearing meeting at

_____ On _____

Thanking you,

Yours sincerely,
